**Summary of Legislation:** (CCR Amended) This bill changes the membership and meeting procedure of the Community Residential Facilities Council. The bill provides that one of the two representatives of the public on the Community Residential Facilities Council may be a member of a representative organization of state employees. The bill requires Council approval of an entity providing supported living services. It also allows the Council to issue a provisional license or provisional approval for up to six months to a supervised group living facility or an entity that provides supported living services. The bill provides transitional authority for a supervised group setting that is converting to a supported living setting to operate as a supported living setting under certain conditions.

**Effective Date:** (CCR Amended) July 1, 2001; July 1, 2002.

**Explanation of State Expenditures:** (Revised) The bill adds three lay members to the Community Residential Facilities Council, increasing its total membership to 13. The bill also allows the Council to meet more frequently than the required quarterly meeting if necessary, but no more frequently than once each month. The Council is composed of State employees and lay members. Council members who are not State employees are eligible to receive travel expenses and a salary per diem of \$50. The increased membership and the additional meetings may increase the Council's administrative expenses by approximately \$6,000 annually. The additional resources required by the bill can be absorbed within the current level of funding

provided for the Residential Facilities Council from the Developmentally Disabled Client Services appropriation.

The Council is staffed by the Division of Disability, Aging, and Rehabilitative Services. It is anticipated that the additional administrative work resulting from an increase in the frequency of meetings will be absorbed within the existing staff level.

It is not known at this time whether the addition of supported living service providers as an entity that must receive Council approval for supported living services will require an increase in agency licensing/approval staff.

The bill also provides for a transitional period of one year for the conversion of an active treatment supervised group living setting to a supported living service provided that the conversion has been approved by the Bureau of Developmental Disabilities Services. FSSA reports that this conversion program is required by the Health Care Financing Administration, (HCFA).
